

Completion Rates of LCCW Doctor of Chiropractic students by gender, race and ethnicity

The normal duration of the standard Doctor of Chiropractic program at LCCW is 14 quarters. Completion rates are reported as the 150% Completion Rate (150CR), which is a statistic that captures the number of students who completed the DC program at LCCW within 21 quarters of the time that they started. Column 2 is the number of such completers of the program by the Completion Year indicated in Column 1. Column 3 is the number of matriculates entering 21 quarters prior to the Completion Year of Column 1.

For example, the result for the cohort year of 2011-2012 (85.3%) is computed from the number of non-transfer matriculates who started the program in SU06, FA06, WI07 and SP07 and who had completed the program by the end of SU11, FA11, WI12 and SP12.

Race, Ethnicity and Gender Data for 150% Completers of the DC Program at Life Chiropractic College West (updated 22 Oct 2015):

Completion Year	Number of Completers (N)	Number of Matriculates (21 Qtrs earlier)	150CR (DC program)	Non-Resident Alien ¹ (Number; % rel. to N)	Black, or African American (%)	Am Indian or Alaska Native (%)	Asian (%)	Native HI/ other Pacific Islander (%)	Hispanic/ Latino (%)	White (%)	Race and ethnicity unknown (%)	Male (%)	Female %
2014-2015	69	76	90.8%	5; 7%	1%	0%	14%	0%	14%	58%	12%	54%	46%
2013-2014	78	92	84.8%	4; 5%	3%	0%	14%	0%	8%	71%	3%	52%	48%
2012-2013	97	118	82.2%	5; 5%	2%	0%	14%	0%	11%	62%	11%	58%	42%
2011-2012	81	95	85.3%	7; 9%	1%	0%	8%	0%	7%	70%	14%	58%	42%
2010-2011	99	125	79.2%	10; 10%	3%	0%	16%	0%	11%	58%	11%	54%	46%
2009-2010	107	138	77.5%	17; 16%	1%	0%	11%	0%	4%	76%	8%	53%	47%
2008-2009	88	121	72.7%	7; 8%	7%	0%	13%	0%	9%	54%	17%	55%	45%
2007-2008	93	122	76.2%	7; 7%	2%	0%	13%	0%	6%	67%	12%	61%	39%
2006-2007	113	144	78.5%	6; 5%	2%	0%	15%	0%	9%	54%	20%	62%	38%
Total (N; %)	825	1031	80.0%	68; 8%	20; 2%	0%	108; 13%	0%	101; 12%	521; 63%	101; 12%	56%	44%

¹Non-Resident Alien category (Column 4) includes non-U.S. citizens (predominantly International students). These students do provide their ethnicities and race, and their demographic data are included in Columns 5-11. Thus, for reporting purposes, Column 4 includes both the number of graduates who are non-U.S. students *and* their percentage relative to the total number of graduates in that academic year.
